

BlackCamel Energy Ltd, a fore runner amongst African exporters was registered on the 18th day of May 2015, under the companies and allied matters Act 1990, limited by shares.

BlackCamel Energy Ltd is actively engaged in exportation of tropical hardwood in lumber and furniture components form globally.

A strong knowledge of the market demands, led to the formation of BlackCamel Energy Ltd. We have made substantial in roads into the international trading market as we are actively engaged in several exportation of exotic African timber in furniture components to China, Taiwan, Japan, U.A.E, Vietnam and Europe.

The company's management philosophy is based on responsibility and mutual respect. We maintain an environment and structure that encourages productivity, respect for customers and fellow employee.

BlackCamel Energy Ltd has a world class management team with direct knowledge of the industry, extensive business experience and unique operational skills.

OPERATION

We operate based on buyers request through agreed contract.

Our requests are so enormous that we sometimes give out orders to other exporters to supply. Our company is well known in Asia and Europe on integrity, reliability honesty and perseverance because egalitarian is our watchword.

There are numerous requests which can't be completed in many years to come because the timber market is always hungry for more.

OPERATING WITHOUT PREJUDICE

We do operate without prejudice as we are licensed by the Federal ministry of Environment, federal ministry of finance and the Nigerian export promotion council (NEPC). We operate through due diligence by maintaining legal source from the point of harvest to the point of export.

SUSTAINABLE HARVEST

We solely trade on sustainable wood from a sustainable forest with 100% due diligence. Our wood is renewable due to the fact that landscape, damage to wildlife, watersheds and ecosystem is being taking into consideration before harvest.

We at BlackCamel Energy Ltd understand that illegal logging drives deforestation and also robs both national government and local communities of valuable income. it also contributes to global diversity loss and climate change.

For each of our harvest, ten (10) trees are being planted for an harvested tree. We operate a ratio 1-10

That is why we make sure all our timber are being sourced legally from harvest to sawmill to production and lastly to exportation with approvals and letter of support for legitimate logging from the ministry of environment and the ministry of finance with all dues and taxes paid.

OUR FOREST:

Concession of forest at Ibarapa Central Local Government, Oyo State, Nigeria. We practice sustainable forest management and we are duly monitored by Forest Products Traceability Network.

TIMBER PLANTATION:

We have forest land in Ishara, Ogun state and another 100 Hectares of land in Ideere, Ibarapa Central L.G.A of Oyo State meant for Teak, Gmelina and Ebony wood plantation.

ENDANGERED SPECIES:

We don't trade on endangered species as our focus are only on lesser-known species (LKS) and species that are not threatened.

PROCESSING

We do process materials at our sawmill located at Igbo-ora, Oyo State, couple with additional mobile equipment which we do carry along to our processing site for operations.

PRODUCTS WE DO EXPORT

1. Hardwood Live Edge Slabs
2. Hardwood Square Edged Slabs
3. Hardwood Lumber

NIGERIAN TIMBER DATA:

We are the pioneer of Nigerian Timber Data Platform which is an online platform that captures the data of harvested timber in Nigeria.

The platform helps to promote legal logging and sustainable forest management. It also comes with a tracker that keeps track of information of the harvested timber.

www.nigeriantimberdata.info

FOREST PRODUCTS TRACEABILITY SYSTEM:

BlackCamel Energy Ltd and other forest stakeholders are pioneers of forest products traceability network to make sure all forest products comes from sustainable forest and also are traceable from the point of sales down to the point of harvest.

FACT SHEET

BLACKCAMEL ENERGY LTD LIVE EDGE SLAB

DESIGNER/YEAR OF
DESIGN

Olajide J. Alaba, 2015
